THIRTY-SIXTH PUBLICATION.

EDINBURGH:

PRINTED BY BALLANTYNE AND HUGHES,

1841.

The Proprietors of the EDINBURGH POST-OFFICE DIRECTORY beg to return their grateful acknowledgments for the encouragement with which their labours have hitherto been received by the Public, and at the same time to express a hope that the efforts which they have this year made to render their Publication extensively useful, will meet with similar approbation. No labour nor expense has been spared to promote its utility; the utmost care and attention have been exerted to procure authentic information; and whilst they trust that their zeal and assiduity have not been fruitless, it will be their endeavour, in the future editions of the book, to employ the opportunities afforded by their situation to collect every species of information calculated to prove useful to men of business, to merchants and traders, and to the public in general. The Letter-Carriers possess facilities and advantages peculiar to themselves for the preparation of a work of this nature: and as it is equally their interest and their duty to deserve the favour of the public, they will use every honest and fair means to attain so desirable an object.

* * Copies of the Map may be had by applying to any of the General Post Letter-Carriers, or to R. GRANT and SON, Booksellers, 82, Prince's Street.

EDINBURGH AND LEITH STREET DIRECTORY.

The situation of the Closes, Courts, and Lanes, are pointed out by their Names being printed in Italics, at the place or Number of the Street in which they occur; and also when any Street is divided by Cross Streets, the Divisions are distinguished by the Name of the Cross Street being printed in Italics, with a  before it, between the two Numbers of the Street in which they occur.

**** To those having occasion to circulate advertisements, &c. this part of the Directory, in connexion with the List of Letter-carriers at the beginning of the book, will be exceedingly useful, — the names and addresses being taken from the following list, and then thrown into districts for delivery, according to the rounds of the different Letter-carriers.*

PAID LETTER OFFICE—Hours of attendance from 6.45 a.m. till 10 p.m.

POSTAGE LABELS AND COVERS sold at this Office, in any quantity, at all hours at the Government prices.

PRIVATE BOXES for parties who may wish to call or send for their letters, may be had at the Paid Letter Office. Fee, One guinea per annum, payable in advance.—No credit given for Postages.

REGISTRATION.—*Letters, whether containing coin or not, can be Registered* on payment of a Registration fee of One Shilling, in addition to the ordinary rates of Postage.

Registered letters bearing a sufficient number of Stamps will be considered Paid Letters, but the Registration fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood, that Registration cannot extend beyond the Port of despatch in the United Kingdom, though parties, if they wish it, may register such Letters as far as the Port of despatch. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security, till they shall have been delivered, *if addressed to France*, and so long as they remain in the French territory, *if passing through France*.

MONEY ORDER OFFICE.

For the security of sums of Money not exceeding £5, the Postmaster-General has authorized an extended system of Money Orders. An Office is open daily (Sundays excepted) from 10 till 4 o'clock, where orders are issued, (payable at sight) on every Post Town in Scotland, England, and Ireland, at the following rates of charge: For orders to the amount of £2 and under, the sum of 3d., and for orders amounting to any sum between two and five pounds, 6d.

The public are strongly advised to adopt this mode of transmission of small sums of money, rather than risk the enclosure of sovereigns and other coins; and as it is now impossible to enter cash letters in the mode formerly customary, the Money Order Office is the only certain and safe channel by which money can be sent from one town to another.

The Secretary's, Receiver General's, Accountant's, and Dead Letter offices, are open from 10 m. to 4 a. Sunday excepted.

BANK NOTES, BANK POST BILLS, DRAFTS, &c.

The most secure mode of transmitting Bank Notes, Bank Post Bills, or Drafts, is to *divide each*, and send the halves by different posts, waiting the acknowledgment of the one-half before forwarding the other.

BOTTLES CONTAINING LIQUID, AND OTHER ARTICLES OF A BRITTLE NATURE, should not be forwarded through the Post, as they are almost invariably broken, either by the operation of Stamping or by the friction of the Mail Coaches. It is besides improper so to transmit such articles, as by accidents to them, the seals of Letters in the bags may be damaged, the Letters mutilated, or their addresses entirely effaced. For similar reasons, articles having sharp or hard edges should not be transmitted through the Post.

LATE DELIVERY OF LETTERS.—Representations having been made of the time occupied by the LETTER CARRIERS in the DELIVERY of their LETTERS through the City, the inconvenience has been ascertained to be in a great measure, if not entirely, attributable to the delays experienced by the Carriers at hall doors, owing to servants not answering the bells; and in some cases, by the servants not being provided with money to pay the postage. Instructions have been issued to the Letter Carriers to *rap or ring at each hall-door twice*, pausing an instant. The application of the Carrier, therefore, cannot be mistaken; and the public are earnestly requested to aid the Post-master General in his Lordship's anxiety to expedite the general delivery of the correspondence, by obliging servants to answer immediately the Carrier's application, and to have the servant previously provided with sufficient sums to discharge their demands. The increase of Letters, and the reduction of Postage, render it imperative on the public not to delay the Letter Carriers on their walks. Positive orders have been issued to them not to remain at hall-doors where servants are unprovided with money to redeem letters. It is particularly recommended to proprietors of houses and shops to supply themselves with open letter-slips in their hall-doors. If they were to be generally adopted, the delivery of letters would be very greatly accelerated; and nothing would more effectually contribute to the rapid distribution of the public correspondence, than that individuals who reside in common stairs, and whose residences have bells suspended to the street doors, should direct their servants to meet the Letter Carriers on the stairs, and receive their letters from them.

RATES OF POSTAGE.

ALL LETTERS, whether LOCAL, PENNY, or GENERAL POST, FOREIGN or COLONIAL, are charged by WEIGHT, according to the following scale :—

Not exceeding half an oz., . . . One Rate
 Above half an oz., and under one oz., Two Rates
 — one oz. — two oz., Four Rates
 — two oz. — three do. Six Rates

and so on, adding two Rates for every additional ounce or fractional part thereof, no distinction is made after the first ounce, between the ounce and fraction of an ounce; a letter weighing above an ounce and not two ounces is charged four rates.

Letters or Packets weighing above sixteen ounces cannot be forwarded by Post; but will be sent to the Dead Letter Office, excepting—

Parliamentary petitions.

Addresses to her Majesty.

Parliamentary proceedings.

Letters and Packets addressed to, and received from places beyond sea.

Letters and Packets to and from public departments, and to and from public officers, who formerly franked by virtue of their offices.

The Lord Advocate of Scotland.

~ Solicitor-General of Scotland.

~ Crown Agent of Scotland.

~ Insolvent Court of Ireland.

Deeds sent open or in covers open at the sides, may be tied with string and sealed, in order to prevent inspection of their contents.

INLAND RATES.—The uniform rate of Postage of any Letter between places in the United Kingdom, including the Channel Islands and Isle of Man, is One Penny when single, Twopence when double, Fourpence when quadruple, and so on according to the above scale, if the Letter is paid when posted, or written on stamped paper, or inclosed in a stamped cover, or having a stamp or stamps affixed thereto; the stamp or stamps being of the same value or amount as the above Rates. But if the letter is to be paid on delivery, it is liable to be charged double those rates, or Twopence if single, Fourpence if double, &c.

Letters insufficiently stamped or insufficiently prepaid are charged on delivery, double the amount of such insufficiency.

Re-directed Letters are, however, only charged with the single rate of One Penny, double Twopence, and so on, whether they have been previously paid or not, in addition to any Postage that may be on them.

All franking has now ceased, Members, however, of either House of Parliament will be entitled to receive Petitions addressed to either House of Parliament free, provided they are sent without covers or in covers open at the sides, and do not exceed the weight of thirty-two ounces.—Addresses to her Majesty likewise go free of Postage.

FOREIGN AND SHIP LETTERS.—For Rates of Foreign Letters sent by Packet, see next page.

Letters for France are forwarded either Unpaid, paid to Calais, or paid to their destination in France, and are not liable to have the Postage

doubled although they are not paid when posted.

Although *Unpaid* Letters can only be forwarded to places *within* France, there are other Countries to which the Postage may be paid (if the sender should desire it,) in whole or in part, as the case may be, viz.—For Bavaria, Central Germany, Sardinia, and Switzerland, Letters may be paid to their destination. For Southern Italy, Letters may be paid to the Italian frontier of Sardinia. For the Mediterranean, Austria, and Venetian Lombardy, Letters may be paid through France to Huningen or Forbach.

The mode of charging the *French Rates*, on Letters to places in France and passing through France, including those for India, Malta, &c., *via* Marseilles, is a rate of Postage for each quarter of an ounce exclusive.

Letters conveyed by PACKET between the United Kingdom and the British Colonies and Possessions, are liable to the uniform Rate wherever posted, of One Shilling single, Two Shillings double, and so on according to weight, excepting those for India, Malta, and the Ionian Islands, when passing through France, which, if intended to pass at the above Rate, must be addressed "*via* Falmouth; and letters for the British Colonies in North America are charged with the uniform internal colonial rate of 2d. single, in addition to the packet rate of 1s., excepting to the port of Halifax, where they are landed.

Letters conveyed by PRIVATE SHIPS between the United Kingdom and places beyond sea, including the East Indies, &c., are liable to the uniform Postage of 8d. single, 1s. 4d. double, and so on, in whatever part of the United Kingdom they may be posted or delivered.

PRINTED VOTES and PROCEEDINGS in PARLIAMENT are charged at the following Rates, between places in the United Kingdom, and between the United Kingdom and the Colonies when conveyed by Packet, but not through France nor to the East Indies :—

For any weight not exceeding four ounces,	1d.
Exceeding four and under eight	2d.
“ eight and “ twelve	3d.

and so on, adding 1d. for every four ounces or fractional part thereof. No additional charge is made although the Postage is not paid in advance.

SOLDIERS and SEAMEN can send and receive Letters, not exceeding half an ounce in weight, on their own private concerns only, for One Penny (within any part to and from which there are regular Mails,) to be paid when put into the Post Office. The name of the Soldier or Sailor, his Class or Description, and the name of the Ship or Regiment, must be given by himself, and the Officer having the command must sign his name, and the name of the Ship or Regiment to which he belongs.

Their Letters are also forwarded to the East Indies and New South Wales, on payment of One Penny at the time of putting in; and letters from the East Indies are chargeable with One Penny, or Three Pence, according to circumstances; to Places Abroad, where there are no regular Packets, on payment of Three Pence.

The practice of Sealing Letters passing to and from the *East and West Indies*, and other Warm Climates, with Wax, is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the wax, and adhesion of the letters to each other.

Although *Unpaid Letters* can only be forwarded to Places *within France*, there are other Countries to which the Postage may be paid (if the Sender should desire it,) in whole or in part, as the case may be, viz.:—For Central Germany, Sardinia and Switzerland, Letters may be paid to their destination. For Southern Italy, Letters may be paid to the Italian Frontier of Sardinia. For the Mediterranean, Austria, and Venetian Lombardy, Letters may be paid through France to Huningue or Forbach.

LETTERS FOR THE FRENCH POSSESSIONS IN AFRICA, Algiers, Bona, Bougie, Constantine, Orun, Philippeville, &c., are treated precisely as Letters from France—the *French Postage* being 1s. 5d.

A List of Principal Places Abroad, with the Countries to which the Letters are forwarded—and the Rate of Postage from Edinburgh.

MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDER-MENTIONED PLACES.

THE following Lists will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh. The return of the London Mails is calculated by London time.

THE following are among the advantages which this Company offers to the Public:—

- 1st, Very low even rates of Premium, payable annually, half-yearly, or quarterly.
- 2dly, The facilities afforded to all classes of insurers, by having it in their power to adopt either an *even rate* for life, an *ascending scale*, or a *descending scale*, as may suit the convenience of parties; or, further, an *alternative plan*, by which one-third of the even rate of premium (on policies for the whole of life) may remain unpaid, and be deducted from the sum insured at the end of life, with interest at the rate of four per cent per annum.
- 3dly, The adaptation of the Tables to any service, or to any country in the world; and it will be found that in Foreign Insurances also, the extra rates charged are considerably lower than those of other offices.
- 4thly, The Insurance of persons of advanced age, and also the undertaking of risks that might be rejected by other offices, at moderate rates, deduced from very extensive and accurate observations.
- 5thly, The great facility afforded for the transfer of policies, the Directors, instead of requiring assignments of these to be executed, in every case issuing a new policy in name of the intended assignee, on surrendering the former, and merely paying the price of the new stamp.

The following are selected from the Even rates:—

FIRE INSURANCE.

MODERATE Premiums—Prompt and Liberal Settlement of Losses. In *Farm Stock Insurance*, no Charge for the Policy.

LIFE INSURANCE.

EVERY method by which Life Insurance may be applied to the varying circumstances of individuals, is acted upon by this Company. For *Loan* transactions, the rates on the non-participation scheme will be found peculiarly favourable, as they are among the lowest ever presented to the public. This may be readily verified by comparing the subjoined Tables with those in use by other Offices. On the *Participation* system, the difference between the Premiums taken by Mutual Assurance Companies and this Office, is equivalent to an immediate *Bonus*, which is independent of the large share of profits periodically appropriated to the Policy-holders. Premiums may be paid yearly, half-yearly, quarterly—in one sum or in a limited number of payments.

Assurances effected on the lives of Naval and Military men, and on persons intending to reside abroad, at Premiums corresponding to the extra risk.

The sum Assured may be made payable during the *lifetime of the party Assured*.

ANNUITIES—Immediate or deferred, granted. *REVERSIONS* purchased. All claims settled three months after proof of death.

As illustrating the progress and success of the Company, it may be mentioned, that within these few years, no less than One Hundred and Sixty Agencies have been opened. Indeed, from the spirit with which the business has been prosecuted, the moderate Premiums, and the great liberality evinced by the Office, in the settlement of every loss by fire, there can be no hesitation in saying, that a short time has only to elapse before this Company will succeed in being one of the first Insurance Offices in the kingdom. For a good many years back, the Directors have been enabled to declare Dividends of $11\frac{1}{4}$ per cent, and, for the present year, they have declared a Dividend of 12 per cent. The Stock now stands at the very large quotation of *One Hundred and Seventy Five per cent* above the original cost.

Aberdeen Fire and Life Assurance Company—Continued.

ment Capital (in addition to the fluctuating Funds arising from the Premiums) with the *beneficial* rule of returning, at stated periods, the surplus of the annual Premiums to the Contributors, after paying losses and expenses. The importance of this improvement is acknowledged by extraordinary public approbation, and by the numerous imitations of it which new Offices have lately offered, and which older ones have adopted in changing their Constitutions. The principle is of chief value, because as it yields, by the SPECIFIC SUMS INSURED, AND THE RETURN OF THE SURPLUS, THE FULLEST VALUE FOR THE DEPOSITS, persons have no reasonable motive for venturing on the lure of reduced and insufficient premiums proposed by Adventurers, and which has led to frequent instances of disappointment and ruin.

CAPITALS, A MILLION STERLING, and upwards.

It is now thirty-three years since the *County Fire Office* was instituted. It is the only Fire Office that has made regular and large Returns to the parties insured. These returns, which have been made to 100,000 persons, have been constant; they have been 10, 20, and 25 per cent invariably since 1807, and have amounted to £123,000. During the above period, upwards of Forty Insurance Offices have broken up, some with the loss of every thing. Among the extraordinary number which have recently sprung up, many are evidently not intended to last. The closing of the *Royal Union Office* in Lancaster Place, London, which took place recently, and the complaints of numerous persons at Bow Street, who had deposited all they possessed in that Office, and were left destitute, is a warning that ought not to be disregarded.

THE PROVIDENT LIFE OFFICE.—The public are insufficiently acquainted with the vast difference which there is in the various Offices for Life Insurance. The professions of all are pretty nearly equal, but their disparity in performance is immense. Nearly all now offer a participation in profits, in terms more or less vague; but as few of them make any profits, uncertainty in that respect is of little consequence. A more material question is—when the claim arises, will it be paid? or, if inconveniently large, will objections be sought for, and expensive litigations raised to defeat it? or else, if—after the contributions have been continued for a long series of years, and the Policy is drawing towards a claim—if, from any accident, the annual payment be omitted on the precise day, will the Managers take advantage of the omission, refuse to renew, annul the Policy, and seize on all the deposits as a clear gain? Recent disclosures have shown that the risk of the loss of the contributions in this way, is greater than the risk insured against.

It is therefore important to know, that the security of the public in keeping up their Policies is amply provided for in the following conditions, which is *peculiar* to the *Provident Life Office*:—"If, from any accident, parties do not renew at the stated periods, they are entitled to repair the omission, at any time within one year, on the payment of a fine of 10s. per cent, and satisfactory proof of health."

The profits in the Provident are divided at the end of every seven years among the Members, in proportion to their respective contributions. These have gone on increasing since 1806 to FORTY PER CENT. Only an *eighteenth part* of the profits is taken by the *Shareholders*, in consideration of their advance, and guarantee of a quarter of a million sterling, and their exoneration of the other Members from any loss.

The effect of these divisions may be judged of from a few examples of claims lately paid.

Persons removing to unhealthy climates, or subject to bodily infirmities, may be insured upon a full disclosure of the facts, and the payment of proportionate additional premiums.

If any person who has insured his own life in this Office die by suicide, duelling, or the hands of justice, his representatives may receive the full value which his Policy bore on the day previous to the time of his death.

THE Directors of this National Institution, sensible of the advantages which it affords to all classes of insurers, have abstained from putting forth their claims to the patronage of the public, notwithstanding the many rival Companies which have lately been ushered into existence. In justice, however, to their numerous proprietary and policy-holders, they cannot refrain from pointing out a few of the benefits which the Caledonian Company offer to Life Insurers, and which, when considered, cannot fail to secure for them a continuance of that support they have hitherto so liberally received; and they have only to mention, as the best proof of the increasing prosperity of the Establishment, that the Revenue, in the course of seven years, from the Life Business alone, exceeds £20,000 per annum.

1. Every facility is given to insurers to effect Life Policies, by taking payment of the premium in a single payment, by annual, half-yearly, or quarterly payments, or by the ascending or descending scale, or by any other mode in practice.

2. The Premiums will be found as moderate as those of any office of the same respectability and standing.

3. When the party wishes to surrender a policy, a liberal price will be given for it; and in particular cases, when the object of the insurer has been satisfied, the Policy will be purchased by the Company on very favourable terms for the seller.

4. In the event of death, claims are payable three months after proof satisfactory to the Board has been afforded, and sooner, should the parties require it, on payment of the usual discount.

5. Advances made on security of Policies, on very liberal terms to borrowers.

6. The Company pays the sum insured, in the event of the assured dying by suicide, duelling, or a sentence of the law, when the policy is *bona fide* assigned to third parties, for onerous causes; or when effected by one party on the life of another, thus securing creditors against challenge on any of these grounds.

7. To Policy-holders on the participating plan, peculiar advantages are afforded from the economical management of the Establishment, and the smallness of the losses hitherto being much below the average mortality, arising from the careful selection of the lives.

8. No entrance-money is charged, and no expense beyond the stamp, which is only payable once when the Policy is issued.

The above is merely an outline of the most prominent advantages which at first sight may appear to intending assurers all that is required to be known before taking out a Policy. But as the printed Prospectus gives a much fuller statement of every thing connected with the business, reference is made to it, which can be obtained at the Head Office here, gratis, or at any of the branches in Scotland, England, and Ireland.

Every description of Fire business is done at rates as low as those of any respectable establishment

DIVISION OF PROFITS.

PROCEEDINGS at a GENERAL MEETING of the STANDARD LIFE ASSURANCE COMPANY, convened in terms of their Act of Parliament, and held within the Company's Office, No. 3, George Street, Edinburgh, on Thursday the 11th day of March 1841, for the purpose of receiving the Report by the Directors, upon the Investigation of the Company's Affairs as at 14th November 1840, and the Division of Profits.

GEORGE PATTON, Esq., Advocate, having been called to the Chair, stated the object for which the Meeting was assembled, and proposed that the Report by the Directors should be read. The Report was accordingly read by the Manager. It contained a complete view of the Company's Affairs as at 14th November 1840, exhibiting the Assets and Liabilities and Surplus Fund, as at that date; with a particular account of the manner in which the investigation had been conducted. The declaration of the Bonus followed, and the Additions made to the Company's Policies were exhibited in the following Table:—

NOTE.—These Additions are vested rights under Policies which have been in existence for Five Years.

Standard Life Assurance Company—Continued.

The Report then proceeded as follows :—

“ The statements of your affairs, which have now been laid before you, have been compiled from the results of a most particular and detailed valuation of the Company's Funds and Obligations. The Valuation of the numerous Assurances and other Life Transactions has been conducted, not by any approximate method of calculation, nor by averages, but each individual transaction has been accurately estimated, and its claims upon the Company fully provided for, while the profit of future years has not been encroached upon. In estimating the Company's Funds and Assets generally, an equally scrupulous attention has been paid to the examination of their true value. In short, the scrutiny has been most rigid, and it must be satisfactory for those interested in the Institution to know, that the favourable state of the affairs now reported has been ascertained by so careful a process.

“ In this state of affairs there is much cause for congratulation. The Company have been enabled to declare a Bonus to the assured at an equal rate with the last Division of Profits in 1835; while at the same time the earlier policies, thus increased, have a greater amount of *vested addition* than those of any other Scottish Office effected at the same period. For instance, a Policy for £1000, opened with this Company in 1825, has been increased to £1337, 10s.; while a policy of the same amount and standing in the Scottish Widows' Fund, with its *vested bonus*, at 1st January 1839, is £1259, 14s.* This comparison, followed out, continues favourable to this Company for some years. A Standard Policy, opened 15th November 1828, is, with its *vested addition*, £1262, 10s.: while a Scottish Widows' Fund Policy of the same date, with its *vested addition* at 1st January 1839, is £1208, 8s.* The particular mode of Division adopted by this Company for the division of Profits, it will thus be perceived, is now beginning to exhibit itself in a tangible form, to the benefit of those who continue connected with it as Policy-holders for the longest period.

“ In this Company the greatest advantages are afforded to those whose Policies are long upheld with the office. This Principle of Division is similar to that *originally* acted upon by the Equitable Society of London with all its Policy-holders, and the Standard is the only Scottish Office which has divided its Profits in that manner.”

The Report contained many other highly important statements illustrative of the benefits of the system of Division adopted by the Company, and was received with much applause.

The Auditor's Report came next before the Meeting, and, in the absence of William Keith, Esq., Accountant (the Auditor,) it was read by Charles Pearson, Esq., Accountant. It contained a statement of the particular manner in which the accounts and books of the Company are kept. Some results connected with the mortality experienced by the Company were stated, and, in confirming the Report upon the investigation of the affairs, and Division of Profits, it proceeded thus :—

“ It is unnecessary for me, after you have heard the perspicuous statements which it (the Report) contains, to say any thing more to convince you of the continued and increasing prosperity of the Company; but I think it my duty to bear witness to the care, attention, and mature deliberation that have been bestowed by the Directors and their Actuary and Manager in making this investigation, and in the adoption of the data upon which it was to proceed. I can also assure you, that, in ascertaining the surplus funds and distributing them among those entitled to their benefit, the Directors have been guided by the most anxious care for the interest of all parties concerned, and the future increasing prosperity of the Company, as the sure and only way of gaining and enjoying the increasing confidence of the public, and of inducing greater numbers of the community to become Assurers with the Company.”

Mr PEARSON then proceeded to say—He had had the honour to be appointed upon the Investigation Committee, and had examined very minutely the detailed statements of the affairs of the Society, and the results there brought out, and he availed himself of the opportunity of bearing testimony to the able and clear manner in which these statements were drawn up, and to the great accuracy with which the business of the Company was conducted. The Investigation Committee had been called upon, in the course of their duty, to go through extensive statements and calculations connected with the different departments of the business; but from the arrangements of the accounts, both in the abstract and in detail, the enquiry was rendered not only a very satisfactory but a comparatively easy and highly interesting one.

* The Standard have no prospective Bonus, thinking it better to allocate a larger sum in retrospective additions at once, than to increase the claims under Policies which may emerge between the periods of Investigation. The Scottish Widows' Fund have a Prospective Bonus, and the addition to Policies in the event of death before next Investigation is at the rate of two per cent per annum on the accumulated sum in the Policy, but only in the event of death.

Standard Life Assurance Company—Continued.

JOHN THOMSON, Esq., Cashier of the Royal Bank of Scotland, moved the approval of the Report.

WILLIAM FRASER, Esq., Abbey Park, seconded the motion, which was carried by acclamation.

GEORGE PATTON, Esq., as Chairman, then addressed the Meeting.—He said, the Directors had anticipated that the Report which it was their gratifying duty to lay before the Meeting would be favourably received, and its reception had proved that they had not been disappointed. But the Report could not fail to be acceptable, for it was hardly possible to imagine one containing more fitting elements for congratulation.

The Directors had, at each successive yearly meeting, had occasion to report the favourable progress of the Company, and to anticipate that the result of the investigation then in prospect would be extremely favourable. The searching and rigorous investigation which had just been completed, verified every anticipation which they had formed on the subject, and the result, he might safely say, had exceeded even the most sanguine views which the warmest well-wishers of the Company could have formed.

One result of the investigation had been, to give an additional practical demonstration of the benefit accruing from the principle of the division of profits adopted by the Company. To this he called the especial attention of the meeting. The fact had been brought out that, according to the comparison stated in the Report, the older policies in this Company have a larger addition than policies effected at the same period in the most extensive and prosperous of the Mutual Assurance Societies. This had been achieved by the very great success which had attended the transactions of the Company, and by carrying into practical effect the safe and fair principle that the largest share of the profits should be given to those who have made the greatest number of contributions to the fund, the rule adopted by the Standard being, to add at each successive investigation a per centage, not merely for each year of the period since former investigations, but for each year during which the policy had been in subsistence.

The Chairman then proceeded to illustrate the effect of this system of distribution, by assuming policies of equal amount to be opened with two Offices dividing quinquennially, the one upon the principles of the Scottish Widows' Fund, the other upon the principles of the Standard. He assumed various rates of addition. With equal rates of bonus, he showed a great preponderance in favour of the policies on the Standard principle; at the same time, allowing that equal rates were too favourable an assumption, looking to the peculiar mode of division adopted by the Standard: but following out the same illustration, and adopting only an addition of *£1 per cent* on the Standard principle, and *£2 per cent* upon that of the Widows' Fund, he stated that the result at the sixth investigation to be *£1050* of vested addition in the case of the Standard principle, and only *£771*, 11s. 3d. in the case of the Widows' Fund principle; thus evincing, that even assuming a small addition on the Standard principle (the rate which that Office maintained at two investigations being $1\frac{1}{4}$ per cent.), and a large addition on the Widows' Fund principle, the result would still be in favour of that of the Standard in the case of policies effected on the lives of those who have most reason to look for the greatest benefits from the profits—those who have paid the most contributions to the fund—and that, too, in the absence of any charge for entry money on the part of the Standard.

He then alluded more particularly to the progress of the Equitable Society of London, upon the model of which the Standard proceeds in its division of profits, and concluded thus:—"It is doubtless to the operation of this principle that a large portion of that signal success which attended that distinguished Society may fairly be attributed. By a steady adherence to that principle, and by the combined and continued efforts of those who are interested in its prosperity, it may safely be predicted, that in the progress of this Company, likewise, each successive period of investigation will present a measure of still increasing prosperity. We have all the elements of success at our command, and nothing but determination and perseverance in their use is wanting, in order to secure the continued advance of the Society in that career of success and prosperity which has hitherto uniformly attended it." (Great applause.)

GEORGE MOIR, Esq., advocate, considered the results which had been brought out by the Report as most remarkable, and calculated to afford the highest gratification to all connected with the Institution. Ever since he had been acquainted with the matter of Assurance, it had been strongly impressed upon his mind that a well conducted Guarantee Institution afforded greater advantage to Assurers than any other; and he felt confident that that day's Report contributed further to advance the cause than any argument which could have been used, at least with reference to the Standard—for it was allowed to be peculiarly constituted to exhibit the advantages of a well-conducted Institution of that kind.

He directed the particular attention of the Meeting to the importance of an investigation. When prudently conducted it must be the best, and he might say it was the only, proof of the prosperity of an Assurance Office; and knowing with what careful and cautious deliberation the affairs of this Company had been sifted, he and all around him could point with increased confi-

dence to its future prospects. He concluded by congratulating the Meeting upon the present position of the Society. (Applause.)

GEORGE GRAY, Esq., of Perth, moved a vote of thanks to the Directors and Office-Bearers of the Company for the manner in which they had conducted the investigation. He was sure that the result could not fail to be gratifying to every person connected with the Institution. As a Policy-holder he was gratified with it, but still more so as an Agent for the Company; because, having laboured strenuously to increase the business of the Society, he knew well the advantages which that result would give him.

WM. WOOD, Esq., returned thanks as one of the present Directors of the Company. He expressed the pleasure and satisfaction which he derived from finding that their services had been approved of. He begged, however, to call to recollection the fact that these thanks were no less due to all those gentlemen who had acted as Directors during the last five years, and to the able and zealous services of successive Boards of Directors. He therefore begged that it might be understood that all those gentlemen were equally included in the present vote of thanks.

He had much satisfaction in finding that all persons connected with the Company were highly pleased with the result of the investigation. He felt assured that the comparison which the additions made to Life Policies in this Company could stand with those of the other Scottish Offices, and particularly with the Scottish Widows' Fund, the oldest, the greatest, and one of the best managed institutions of the kind in Scotland, must be highly satisfactory. He hoped that it would not for a moment be supposed that this comparison was meant to be an invidious one; nothing could be further from the intention of the Directors; but it had been thought desirable to show the fallacy of a statement often made, that in no circumstances could the advantages to Policies in the way of Bonus be equal in amount in a Guarantee Office to those in a Mutual one.

Mr Wood then proceeded to say—"As example is generally reckoned better than precept, I shall show the accuracy of the Comparative Statement by a reference to an actual case. A friend of mine took out a Life Policy with the Standard in 1827, and one to the same amount with the Scottish Widows' Fund in 1828. I had an opportunity of both astonishing and pleasing him the other day, by showing him, that taking the Policies as if granted in the same year, his heirs would, in the event of his death at the present moment, actually receive a larger sum of money from the Standard than from the Widows' Fund. My friend, who has been for some years intimately connected with the Scottish Widows' Fund, and who of course was disposed to think most favourably of it, could not easily be persuaded that I had stated the facts accurately, until I showed him, that the result in our Office was owing to the method in which the Surplus Funds are appropriated by us among the Policy-holders (hear, hear); the additions to the Policies in the way of Bonus being made in the Standard at each Investigation, not in proportion to the number of years that have elapsed from the time of the previous Investigation, as in the Widows' Fund, but from the original date of each Policy; in this way a greater proportion of the Surplus Fund being given, as it ought to be, to the Policies of the longest standing, the holders of which have made the greatest number of payments to the Fund. It seems to me a remarkable circumstance that this mode of division, originally adopted and acted upon by the Equitable Society of London, has not been followed by any one of those Scottish Offices which are in the habit of declaring that they are established on the model of that Institution." (Applause.)

Mr Wood concluded by moving a vote of thanks to Dr Davidson and the other Medical Gentlemen connected with the Company, which was unanimously adopted.

DAVID SMITH, Esq., W.S., moved a vote of thanks to the Local Boards of the Company; and Mr GRAY, of Perth, returned thanks.

JOHN S. NEWBIGGING, Esq., W.S., then addressed the Meeting. He was intimately connected with another Society; yet looking to the vast importance of Life Assurance to the community at large, it was impossible for him not to feel gratified at the success of any Company, which, like the present, proceeded upon safe principles, and not experimental data. He responded cordially to the sentiments expressed by Mr Moir and Mr Wood, that it was for the Company's advantage to keep up a good understanding with other Offices. "Let there be as much fair competition as you like," he continued, "but it is quite possible that there may be a contest for the public favour without contention, and rivalry without jealousy." (Applause.)

A vote of thanks having been voted to the Chairman for his conduct in the Chair, the Meeting separated.

LIFE DEPARTMENT.

A THIRD Valuation of the Company's Life Risks was completed in June 1838, and the Directors have great satisfaction in stating its results; the Tables annexed show the additions made to the Company's Life Policies. If parties will take the trouble of *comparing the Bonus* to which a Policy in this Office is entitled, with what would attach to a Policy of similar standing at other offices, (a comparison that may very readily be made, as the printed Proposals of Assurance Companies generally show the amount of periodical additions), it will be seen that such comparison is very favourable to this Company.

The Directors having recently had under their consideration the rates of Premium for Life Assurances, have determined to reduce them considerably for the younger ages, so far as they refer to Assurances made for shorter periods than the whole term of life. It is confidently trusted that this *reduction in the short term premiums* will be found highly useful to such parties as are obliged to insure their lives to perfect securities for temporary loans of money; inasmuch as the saving in the Premium of Assurance will, in some cases, be nearly 15 per cent.

THIS Incorporation affords unquestionable security to the public from the magnitude of its capital. FIRE DEPARTMENT.—Property, real and personal, of every description, may be insured on the most advantageous terms; common insurances of the first class at the reduced rates, and property, involving more than ordinary hazard, at rates of premium commensurate with the value of the risks.

All losses, when satisfactorily ascertained, are immediately paid.

LIFE DEPARTMENT.—PARTICIPATION IN PROFITS.—TWO-THIRDS of the profits are allotted at regular periods to the Insured, WITHOUT BEING SUBJECT TO ANY DEDUCTION FOR CHARGES OF MANAGEMENT. The first division will be made on 1st January 1842. The remaining one-third will be reserved by the Incorporation as a compensation for undertaking the whole expense of management, and for the security afforded by their capital against all possible contingences.

REDUCED RATES—NO PROFITS.—To facilitate Loan transactions, a reduced scale of rates has been adopted, which will be found particularly favourable to the Insured, especially for young and middle-aged persons.

Moderate rates are demanded for Insurance against the contingencies of foreign climates, military or naval service, and voyages to distant countries.

LIFE ASSURANCE.

BESIDES the perfect security to the policy-holder of a large *paid up Capital*, and accumulation funds with *moderate rates* of premium, the following is *one* amongst many of the advantage which *belong exclusively to the principles* of Life Assurance and Deferred Annuities *originated by the Society*, viz.:—Power to *borrow* (without delay, expense, or forfeiture) *Two-thirds* of all Premium paid upon a Policy of Assurance. Limits of Travelling enlarged, and Suicide no forfeiture, after seven years payment.

N.B.—Policies, as collateral money security for periods of one to five years, effected at lower rate than charged by any other Office (see Tables A. and B.,) with option of continuance for Life at the usual rates.

DEFERRED ANNUITIES.

By the plan exclusively developed by the Society, a single Deferred Annuity is made not only to answer the same object, but greatly to exceed in amount the entire benefit of all the advantages heretofore only obtained by the middle and industrious classes by separate investments in Savings Bank Benefit Societies, and Loan Banks.

1. A small yearly or weekly contribution will secure the most ample return for after life; thus, L.2, 12s. per annum (1s. a week) at 20, will, at 65, give the policy holder the choice of an annuity for life of L.47, 16s. 6d.; L.394, 11s. in cash; or Policy without further contribution of L.466 death. Other periods of life (of 50, 55, and 60,) may be also taken with similar advantages.

2. *Two-thirds* at any time *lent* on deposit of Policy, being a fund always available during *sickness* or want of employment.

3. *Two-thirds* of all *payments returned* to representatives in case of premature death.

The Central Board for Scotland (which meets weekly on Friday at Four o'clock,) is empowered to establish agencies throughout Scotland in communication with itself, to whom all proposals may be transmitted, and by whom Policies will be issued, and Claims settled in all respects as a Scottish Office.

Applications from suitable persons desirous of forming Agencies, to be made to this Office, where Prospectuses, Reports, and every requisite information can be obtained.

National Loan Fund Society—Continued.

At the *Second Annual Meeting* of the Society, held in the London Tavern, on Wednesday, 12th May 1841, the Directors' Report, which was unanimously approved of, exhibited the steady and uninterrupted success of the Society during the past year, notwithstanding the competition of younger societies by means of premiums reduced below what had heretofore been considered prudent, and the sudden appearance and extinction of other Schemes of Life Assurance, which naturally produced an impression on the public mind unfavourable to the General Extension of Life Assurance. This, however, it is expected will be remedied by the proposed Parliamentary investigation, which is looked for with much satisfaction by the Directors of this Society. The number of Policies issued by the Society now amounts to 1611, and the Society's present annual income to £22,500. Of these policies, eleven have become claims, and have been paid to the holders' representatives, amounting to £5509, 19s., while on the other hand, the sums received on short terminated Policies, on which no claims can accrue, amount to £4489, 7s. 7d., thus showing not only a most careful and successful selection of Lives, but the advantage of the reduced rates on short risks, as published in the Tables marked A and B in the Prospectus, which are highly favourable to Assurers for temporary purposes.

TWO Plans are offered by this Company to Insurers, by the first of which they are entitled to participate in the Profits of that branch of the business to the extent of *five-sixths*, to be ascertained every five years.

By the other Plan, the Insurer may secure a certain fixed sum at a smaller expense, without participating in the Profits, by adopting the Table of *Reduced Premiums*, which is calculated upon the lowest scale consistent with safety to the Insurer and the Insured.

One-half of the amount of Annual Premiums on Policies for the whole of Life *may remain on Credit*, provided the Interest thereon be paid in advance.

The other Branches of Business conducted by the Company are—

Insurances for short periods; Insurances payable on attaining 60 years of age, or at death if it occur sooner; Insurances on the Ascending and Descending Scales of Premium; Insurances on Joint Lives and Survivorships; Present Annuities; Insurances and Annuities payable on attaining the age of 50, 55, or 60, embracing the benefits of the Mutual Accumulation system; Annuities to Widows on the death of the Husband; and Endowments to Children on attaining 14 and 21 years of age.

Liberty to pass in time of peace to any part of Europe without extra Premium.

No Entry Money, or any other charge beyond the Policy Stamp.

Premiums received Yearly, Half-Yearly, Quarterly, or at shorter periods.

The Directors and the Claimants, upon the decease of the party Insured, shall be bound to submit any dispute which may possibly arise to arbitration, with the view of avoiding in all cases the delay and expense of legal proceedings.

THIS Company was established in 1823, and is constituted by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most approved principles, combining the advantages of a Mutual Insurance Society with the security of a subscribed capital. While the Assured have the right of participating septennially in the profits of the *whole business of the Company*, to the extent of *four-fifths*, they are exempted from all risk and responsibility by a subscribed capital of Half a Million, guaranteed by a large and influential body of Proprietors.

At the first periodical investigation, a BONUS was added to the Policies which had been in existence for five years, entitled to participate, varying in amount from 20 to 38 per cent. on the Premiums paid, according to the particular circumstance of each individual Insurance.

The subjoined Tables of rates, upon examination, will be found to hold out very advantageous terms to persons effecting Insurances with the Company; and it will be seen, that those who do not wish to participate in the profits, have the option of assuring at a lower rate of premium, without participation.

No charge is made for Entrance Money, nor for Policies beyond the amount of the stamp.

Twenty-one days allowed for payment of Premiums. Losses paid three months after proof of death.

A liberal price is given for Policies which are to be discontinued.

The Company's business is uniformly conducted on the most liberal and equitable principles, and with strictest secrecy. A prospectus, containing full Tables, and every other information, may be had at the office in Edinburgh *gratis*, or from any of the Company's agents.

THIS INSTITUTION is founded on the best and purest principles of mutual assurance. The sound principles of calculation on which such Societies have been established, had long satisfied those acquainted with the subject of the great advantages they conferred on Insurers, and experience having convinced the public of their perfect security, they now fully appreciate the advantages of securing to themselves the whole profits to be derived from a safe and prosperous business.

Great care is exercised by the Directors of this Society in the selection of Lives—in the safe investment of the funds, and the economy of its management. This, combined with the principle of the distribution of its surplus funds, has secured to the Society a rapid advancement in the estimation of the public.

Parties insured for thirteen years have had more than one-fifth added to the amount of their policies, and the additions to the Policies of less duration have been in the same proportion.

ASSURANCES are effected by this Society to the extent of £5000, upon the same sole or joint or surviving Life or Lives, and are not confined to the profession of the Law, but are open to persons in every station of life.

FOUR-FIFTHS of the Profits made by this Society will be appropriated to the persons assured for the whole term of life.

Calculations are now making for an appropriation of the Profits, as, on the 31ST DAY OF DECEMBER, 1840, and at the end of every Seven Years from that period, the profits divisible amongst the Assured will be apportioned amongst such of the Assured, for the whole term of life, as shall have been so assured for the space of Three Years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward, to the period of the next septennial division, for the benefit of the assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a SPECIMEN TABLE of BONUSES, in even pounds, added to Policies of £1000 each, which had been in force during the first ten years of the existence of the Society, and declared up to 31st December, 1833, compared with the amounts of Premiums that had been received and improved at interest.

35	353	188	60	752	295
40	401	199	65	925	351

Note—Due allowance must be made for extreme and intermediate ages, and the difference of years during which the Assurances have been in force; but the general distribution has been made on the principle and according to the scale above given.

If any Person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the Life assured. And the Person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the profits.

Persons who shall have been insured for the space of Two Years, in £1000, or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their Premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No Entrance-money is required, nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the Lives of Persons residing at a distance from London, by their appearing before a Solicitor in the Country; and the payment of a fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by sea from one part of the United Kingdom to another, and to and from the islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of

peace, in Queen's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or license from the Directors.

The sums due on the Policies will be paid at the expiration of three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary or attending personally at the Society's Office in FLEET STREET.

The Assured are requested to take notice, that no renewal Premiums are ever received from themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the Terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

FIRE DEPARTMENT.

THE allowance of Ten per Cent., which has been made on the Premiums paid on Policies of seven years' standing, is the surest proof of the unprecedented success of this Institution.

LIFE DEPARTMENT.

Tables have been calculated expressly for this Institution, and, independent of a reduced rate of Premiums, as compared with other Offices having a Subscribed Capital, persons assured for the term of life will be entitled, at the end of every seven years, to one moiety of the Profits of the Company, after a deduction of such sum per annum for the Guarantee of the Capital as the Directors may think reasonable, the extent of which is, however, limited by the deed of settlement.

The share of the Profits to be so allowed to the Assured may be applied, either by adding to the amount of their respective Policies such revisionary sums as are equivalent to such profit, or in reduction of the Premiums thereafter to be payable on such Policies, provided such option be declared in writing within three calendar months after the division shall have been declared; but if such option be not so declared, such share of Profits will be added to the amount of the Policies.

The first division of profit to the Assured was made to Christmas 1828, and a second division of profit was made to Christmas 1835. At each period the reversionary bonuses added to the several Policies, averaged rather more than 28 per cent. on the amount of premiums paid thereon during the preceding seven years.

If any person assured with this Company for seven years, or for life, should die within thirty days after the Premium should become due, such Assurance is to be valid in case the Premium be paid within such period of thirty days.

No additional Premium will be required from Military Men, unless when called into actual service. No charge will be made for Entrance Money, Admission Fees, or for Policies beyond the cost of the stamp.

THE following are among the advantages of this Society:—

1st. The security of an ample Assurance Fund, besides the subscribed Capital.

2dly. For young and middle-aged lives the LOWEST RATES OF PREMIUMS that entitle the Assured to participate in the profits.

3dly. Three-fourths of the profits divided every fifth year among those who have been Assured four years on the equal scale of premiums. The bonus declared in 1834 averaged £16 per cent. on the premiums then paid; and the bonus awarded in 1839, on the average, is equal to £31 per cent. on the premiums received during the last five years.

4thly. Assurers may have the bonus applied to increase the sum assured, or in reduction of future premiums, either for the remainder of life or for the next five years only.

5thly. Policies granted without any charge to the Assured beyond the stamp duty.

6thly. An option given to Assurers, on the increasing scale of rates, after the lapse of any number of years, to commute the future increasing premium by an equivalent equal annual one for the remainder of life, and thereafter to participate in the profits. The same advantages are applicable to Assurers on the decreasing scale of rates.

7thly. Policies on the lives of parties dying by suicide, duelling, or by the hands of justice, not void as respects the interest of persons to whom they may have been legally assigned.

8thly. No extra charge for residence in any part of Europe, nor for proceeding (in a decked, sailing, or steam vessel,) from any one port thereof to another during peace, to Assurers not being seafaring men by profession. Licenses are granted to go to any part of the world upon terms proportionate to the risks.

9thly. Whole Life Policies on the equal scale of premium purchaseable after four years. Lapsed Policies revived on favourable terms to the Assured.

LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of Partnership.

A large Capital, subscribed by the Proprietors, forms the security of the Assured.

The Premiums may be all paid at once, or in any given number of years, *in the option of the party making the Insurance*; a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium, while the means of doing so may be more at command; or the Premiums may be paid quarterly, half-yearly, or yearly, as may suit the convenience of those holding the Policies.

Each Policy for Life is entitled to share the surplus profits, which are declared every seven years.

All transactions in the Life Department are considered strictly confidential.

Prompt payment of Claims is made Three months after proof of Death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for *One* and *Seven* years, and for the whole Period of Life, without Profits, will, it is believed, be found, on *comparison*, very advantageous to the Public, while Insurances for the whole period of Life, are equally so, if the benefit to be ultimately derived from a participation of the Profits is taken into account.

LIFE SOCIETY.

INSTITUTED AT NORWICH, 1808.

ACCUMLATED CAPITAL, UPWARDS OF £1,700,000.

ANNUAL INCOME FROM PREMIUMS ALONE, £190,000.

THE NORWICH UNION LIFE INSURANCE SOCIETY Transacts every Description of ASSURANCE and ANNUITY BUSINESS on principles the most liberal, and presents to the Public the following important features:—

First, The Society consists of upwards of SEVEN THOUSAND FIVE HUNDRED MEMBERS.

Second, As a consequence, the advantage arising from an *average decrement of life*, so essential to the prosperity of a Life Insurance Office, is thereby attained.

Third, The SECURITY presented to its Members—arising from an ACCUMULATED FUND OF ONE MILLION SEVEN HUNDRED THOUSAND POUNDS, in addition to an ANNUAL INCOME of £190,000 from *Premiums alone*.

Fourth, The distribution of the *whole Profits* among the parties Insured, and which have already amounted to FOUR HUNDRED AND FORTY-FIVE THOUSAND SEVEN HUNDRED AND NINETY-EIGHT POUNDS.

Fifth, The *Rates of Premium* for Young Lives are lower than those of other Mutual Assurance Offices, and which, in such cases, are consequently equivalent to an ANNUAL BONUS.

The POLICIES now issuing by the Society are in the proportion of SEVEN HUNDRED ANNUALLY.

IMPORTANT ADDITIONS may be confidently anticipated to the Sums Insured at the Periodical Division in 1843, in which additions persons who now take out Policies will participate.

NO ENTRANCE-MONEY of any Description is demanded.

TABLES of the Society's RATES for INSURANCE and ANNUITIES may be had *gratis* on application at the Office

The Right Hon. the Earl of Rosebery

The Right Hon. Lord Stafford
&c. &c. &c.

This Society was Instituted in the year 1797, and as a proof of public confidence in, and approval of, its fundamental principles and general management, it may be sufficient to state that the sums Insured by the Society now exceed FIFTY-EIGHT MILLIONS STERLING.

The INSURED, while they are free from all responsibility, are, by the constitution of the Society, made PARTICIPATORS IN ITS SAVINGS, to the extent of THREE-FIFTHS thereof, under no deduction whatever, and payable at intervals of not less than THREE YEARS.

During the last Six Years, the Profits ASSIGNED TO THE INSURED have been:—

At January 1838,.....	£24,000
At January 1841,.....	46,000

£70,000

To individuals whose cost for Fire Insurance is at all considerable, a TRIENNIAL RETURN of from TEN to TWENTY PER CENT. on the Premium must form an object not altogether unimportant.

The RATES charged are as moderate as those of any other Established Office, and all claims for Loss are uniformly discharged with the utmost promptitude and liberality.

Where the Sums Insured amount to £300, no charge is made either for Stamp or Policy.

The Society has Agents in all the principal towns of the Kingdom, of any of whom the Office Rates and Prospectus may be had.

THIS Company was instituted exclusively for the purchase of Reversionary Rights—absolute or contingent—Annuities or Life Interest—Policies of Assurance on Lives—Shares in Government and Private Tontines—and in General of all rights extending over Property Funded or Real, or otherwise well secured—the emergence, or term of payment of which, depends upon some contingency of life or survivorship, susceptible of calculation.

Every man of Business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his Clients, which, among the manifold relations of society and individuals, now so frequently arise, under Contracts of Marriage—Entails—and other Destinations, Family Settlements, and similar Deeds, where limited rights of Life Interest and Fee, depending in many cases on complicated contingencies, are secured to Parties having separate and frequently conflicting interests. Even where the contingencies by which such rights may be defeated, are comparatively of a remote and improbable nature, they nevertheless are found to affect their marketable value in perhaps a very disproportionate degree. For although a certain class of contingencies may be guarded against by Counter Assurances, through the medium of some one or other of the numerous Life Offices now established, still it is not easy at all times for individuals, unaccustomed to the consideration of such matters, either to devise the most effectual means, as applicable to any particular case, of securing the protection of Life Assurance, or to provide the necessary Funds for the payment of the requisite Premiums. Parties are thus frequently under the necessity of leaving themselves without the protection of Life Assurance, and thereby running the hazard of having their otherwise valuable rights entirely defeated, or are forced to bring them into the market under every disadvantage. But these difficulties, so formidable, and frequently so oppressive to individuals, disappear, or are greatly modified, when a number of such contingent or reversionary rights are held by a Public Body or Company, who can, with comparative safety, on a large and collective scale, undertake the risk of contingencies, which, in any individual case, it would be most imprudent to hazard; or, if judged expedient, can readily command the means of resorting to the protection of Life Assurance, in the most convenient and efficient form.

THE NORTHERN REVERSION COMPANY was accordingly established with the view of meeting the exigencies above alluded to. The accurate observations which have now been made on the duration of human life—the valuable practical tables which have been deduced from these observations—and the well ascertained *formule* by which such computations are regulated, enable correct calculations to be made in almost every case, of the true worth and value of any reversionary or life interest right, depending on particular or combined contingencies of life or survivorship. While, in this way, the Capital of a Company may be safely invested with a reasonable prospect of remunerating profit, parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the publicity, expense, and delay, and very frequently the disappointment, attending a Public Sale.

In order, as far as possible, to facilitate the transaction of business with the Company, Forms adapted to various Cases have been prepared, for enabling Parties, or their Agents, to tender proposals of Sale. Copies of these forms, as well as every other necessary information, may be readily had on application to the Secretary of the Company, at his Chambers, 12, Duke Street.

LIFE ASSURANCE.

THIS CORPORATION RANKS AMONGST THE FIRST AND MOST FLOURISHING COMPANIES IN SCOTLAND; supported by a large and influential body of Proprietors; giving to the Assured every advantage hitherto offered to the Public.

The PREMIUMS are moderately rated at all ages; and are so modified, by ascending and descending scales and otherwise, as to suit the object of every Insurer, at the least immediate outlay, whether to secure a debt, provide for his family, or to convert income into capital for his own use.

When an Insurance is for the WHOLE PERIOD OF LIFE, ONE HALF OF THE PREMIUMS ONLY REQUIRE TO BE PAID FOR THE FIRST FIVE YEARS AFTER THE DATE OF THE POLICY, the other half may remain unpaid, subject to the payment of interest at five per cent annually, to be deducted at death, or may be previously paid off at convenience. It obviously becomes easy for a person of very moderate income to secure, by this arrangement, a provision for his family; and should he, at any time after effecting the Insurance, succeed to or acquire a fortune, he may relinquish his Policy, having only paid one half the Premiums for the first five years instead of the whole as in other Companies.

PARTICIPATING POLICIES share in the Profits without payment of Entrance Money, or incurring the risk attending Mutual Assurance.

BONUSES may be either added to the sum Insured, or applied in reduction of future Premiums. The last Bonus (declared December, 1837) averaged thirty-seven per cent on the Premiums paid.

LOANS are granted to Policy-Holders without expense, on approved personal security.

THE large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the public the full advantages arising from the principle of its constitution, combined with the utmost measure of Security.

The accumulated Fund now amounts to considerably upwards of ONE MILLION STERLING and the annual revenue to more than ONE HUNDRED AND EIGHTY THOUSAND POUNDS STERLING *per annum*, and both are in a state of steady and rapid increase.

The last periodical investigation of the Society's affairs took place at 31st December 1838 when large additions were declared to the Assurances entitled thereto. By way of illustration of these, the following particulars are given of the claim arising under a Policy opened in the year 1820, if emerging by the death of the party assured, after payment of his premium for the current year:—

THIS Company has been established on the principle of admitting the Insured to a participation in the Profits realized. It thus combines the Benefit of Mutual Insurance with the security of a Subscribed Capital, and affords to Insurers advantages superior to those offered by any other Scottish Proprietary Company.

The SUBSCRIBED CAPITAL affords ample Security for the prompt and certain payment of all emerging claims.

The RATES OF PREMIUM are the same with those usually charged by other Scottish Offices.

THREE-FOURTHS of the FREE PROFITS, under deduction of a per centage for a Reserved Fund, are apportioned every five years among the then existing Policies of two or more years' standing.

Printed proposals, showing the Rates and Conditions of Insurance, may be obtained by applying at the Head Office, or at any of the Company's Agents.

The Second Septennial Division of Profits was declared up to the 31st December 1838, when the average additions made to the Policies entitled to participate in them amounted to about 43 per cent, or nearly ONE HALF of the whole Premiums paid. Similar benefits may be anticipated at the next Septennial Period of Division of Profits, on 31st December 1845. Parties who insure, participate in the Profits from the date of EFFECTING the Insurance.

THE Directors, in order to render the advantages of Life Assurance more general, and to afford greater accommodation to persons desirous of effecting Policies, now offer to the Public two distinct plans for that purpose, viz.—

Persons may either participate in four-fifths or 80 per cent of the estimated profits, or they may effect assurances for a specific object, at *Reduced Rates of Premium*, without participating in the profits of the Society.

The Directors have also had rates calculated for effecting assurances determinable at *fixed* periods, the sum assured being payable on death, if the party assured die before the specified period; or TO THE PARTY HIMSELF on his attaining the age of 45, 50, 55, or 60.

The advantages which attend this last form of the contract of insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a creditor insuring his debtor's life, in order to secure a past-due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving repayment of his advance at a *fixed period*; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

Assurances to the extent of £5000 may be made on any healthy life, upon any of the above plans.

The Directors are also ready to entertain proposals for Special Risks, the terms of which may be learned on application at the office.

This Society advances money on Redeemable Annuity; on the security of Entailed Estates in Scotland; and also on approved *Personal Security*, combined with a Life Insurance, on very favourable terms.

The following is a Selection from the Society's Table (No. VI.) of

“PREMIUMS to ASSURE ONE HUNDRED POUNDS, payable when the Person assured attains a *specific age*;—or sooner, if he should die before his attaining that age.”

The Sum Assured payable at the following Ages, viz.

Age when Assured.	At Age 60.	At Age 55.	At Age 50.	At Age 45.

* EXAMPLE.—A person aged 20, may, by an annual payment of £2, 10s. 11d., assure £100, payable to *himself*, on his attaining the age of 60; or to his representatives, should he die before that age. By annual payments of £2, 15s. 6d., 3s. 6d., and £5, 15s. 4d., the sum assured will be payable at death, or at the ages of 55, 50, and 45 respectively.

THE TERMS and CONDITIONS of this INCORPORATION are much more favourable than those of any other similar Institution in Scotland. THREE-FOURTHS of the ENTIRE PROFITS of the BUSINESS, without any reservation, are septennially divided amongst the Policy-holders.

A RETURN OF TWENTY PER CENT was made last year on the whole amount of Premiums received by the Incorporation for Insurances current during all or any part of the period from 1832 to 1839. The Reduced Rates of Premium are charged, and the business continues gradually and steadily to increase.

All town risks of the first class, houses situated in the country, as also, farm-houses and steadings, are taken as common Insurances, at 1s. 6d. per Cent. At the same rate of Premium, the stock and crop on any part of the Farm may be Insured in one sum, *without the average clause*; and, if preferred, the Sum Insured may be allowed to decrease Monthly or Quarterly, whereby a considerable saving is effected by the Insurer.

Insurances on Farm-Stock and Implements of Husbandry, are now exempt from the payment of duty.

PRINTED PROPOSALS, showing the rates and conditions of Insurance, may be obtained by applying at the Head-Office, or at any of the Society's Branches.

THE system of Life Insurance in this Country has assumed such importance, that to enlarge on its advantages would be altogether superfluous. The British Public have, happily, been long familiar with a scheme, which, by a small annual sacrifice, secures from poverty the children and relatives of persons whose incomes are wholly or chiefly dependent on their lives—which is capable of a very useful application to marriage settlements—and which is eminently calculated to give stability to a vast variety of important transactions. It is not wonderful, that a plan, which embraces so many beneficial objects, should have powerfully engaged the public attention, and mixed itself, widely and intimately, with the whole business of life.

The PELICAN LIFE INSURANCE COMPANY has, for upwards of forty years, held a distinguished rank among the numerous establishments connected with these great purposes. The confidence the Directors have so long enjoyed, they are naturally ambitious to retain. They have accordingly instituted a careful enquiry into the business of the office since the establishment of the Company in 1797; and, principally upon this experience, they have constructed an entirely new table of rates, which they now submit to the Public.

In addition to the table already alluded to, which offers as low a rate of premium as the Directors believe to be consistent with the security of the assured, they have, in consequence of the strong bias manifested by the Public to the system of a return of premium or addition to the policy, constructed another table at a somewhat higher rate of premium; the assurers under which will form a distinct branch of the Company's business, to commence from the 3d day of July 1840—and the Directors propose *thenceforth* at the end of every seven years, after a valuation of the outstanding risk in this class, and after a reasonable deduction for charges and management, to return to the then holders of policies, *on this scale* of premium, not less than a moiety of any surplus that may then appear, to be ascertained and apportioned by the Directors; and, thereupon, the holders of policies for whole life which have been in force five years, or which shall be afterwards continued till they have been in force for that period, shall, at the option of the assured, (to be declared at the time of effecting the insurance,) be entitled to have the sum that at each septennial valuation may be appropriated to their respective policies, applied according to either of the rules following, viz. :—

Pelican Life Insurance Office—Continued.

- 1st, BY AN IMMEDIATE PAYMENT OF THE SUM SO APPROPRIATED; OR,
 2d, BY AN EQUIVALENT REDUCTION IN THE FUTURE ANNUAL PREMIUMS; OR,
 3d, BY AN EQUIVALENT ADDITION TO THE AMOUNT OF THE POLICY (AND PAYABLE THEREWITH.)

THE PELICAN LIFE INSURANCE COMPANY insure, on equitable terms, the lives of persons resident abroad, or about to proceed to foreign climates; and, in this department, the PELICAN OFFICE presents great advantages to Officers of the Army and Navy, as no extra charge is made for home service. The moderate addition required from such individuals, for change of climate, may be covered by an average rate, or the rate for any particular destination may be made the matter of special agreement on taking out the policy; the Insurer paying only the home premium until the contingency contemplated shall happen. In this respect, therefore, the PELICAN OFFICE offers an advantage that recommends itself, equally, to persons assuring their own lives, and to solicitors, agents, and others, whose object is indemnity.—The Directors are, at all times, willing to purchase policies on the most liberal terms; an arrangement obviously desirable, when the object of an Insurance has been effected.

BY A RECENT DECISION of the Court of Directors, Persons who now effect Insurances with this Company for the whole Term of Life, will Participate in the Profits, after having paid FIVE ANNUAL PREMIUMS, without incurring the responsibility attached to Societies for Mutual Insurance. This advantage is not given to the public by any other office in London except the Equitable Society, where it is confined to the privileged number of five thousand participating members, and will be found very suitable to persons as they advance in life, whereby their expectation of partaking of profits, assigned at distant periods, become very precarious.

The BONUS of £1, 10s. per cent per annum, declared on Policies in the year 1831, was added to the sums insured, and the present value of such Bonus may either be received by the parties, or applied in reduction of their future Premiums.

The BONUS on Policies now in force, including the Prospective addition recently declared, amounts in many cases to TWENTY PER CENT ON THE SUMS INSURED, and will increase annually, until the next general appropriation of Profits in the year 1841.

Every description of Insurance may be effected with this Company, at REDUCED PREMIUMS, when persons do not participate in Profits.

When persons wish to discontinue their Insurances from any cause, the Company will purchase their Policies upon equitable terms:

Prospectuses, containing Tables of Premiums, and Examples of the different modes in which the Profits can be applied, may be had at either of the Company's Offices, or of any of the Agents, in the principal Towns throughout the Kingdom.

THIS Company, established by Act of Parliament, affords the most perfect security from an ample Capital, and only requires, when an insurance is for the whole period of Life, one-half of the very moderate Premiums to be paid for the first five years after the date of the Policy; the other half may remain, subject to the payment of interest at 5 per cent annually, to be deducted at death, or may be previously paid off at convenience.

It obviously becomes easy for a person of very moderate income to secure, by this arrangement, a provision for his family; and should he at any time, after effecting the Insurance, succeed to or acquire a fortune, he may relinquish his Policy, having only paid one-half the Premiums for the first five years, instead of the whole, as in all other Companies.

Thus a man of twenty-five years old may, by an annual payment of £28, 16s. 3d. for the first five years, and afterwards the full Premium, £57, 12s. 6d. yearly, secure to his widow and children at his death payment of no less than £3000, subject only to the deduction of £144, 1s. 3d., being the amount of Premium unpaid.

This Company holds out in various other respects great inducements to the public. When such facilities are afforded, it is clearly a moral duty in every parent who is not possessed of a fortune, but of an income however moderate, to insure his life for a sum which may yield a comfortable provision for his family.

LIFE ASSURANCE.

THIS Institution—combining every advantage of a Scotch and an English Office—hopes to receive the especial patronage of *Episcopalians*, on account of the peculiar feature in its constitution above noticed; which, without prejudicing the interests of others, is calculated to bestow important benefits on a meritorious class of persons; and it rests its claim to the support of the *Public generally* on the sound and equitable principles of its scheme.

Assurers may adopt either the participating or non-participating Table of Rates, they being in the former case *guaranteed* by a responsible and wealthy Proprietary in *four-fifths* of the profits.

The Institution transacts business of every description connected with life assurance, including the granting of Annuities and Endowments for existing and future Children; and by the deed of settlement it is declared to be amenable in the Scotch Courts of Law, as to all matters regarding Insurances effected in Scotland—which will also be subject to the Scotch laws of Succession.

FIRE ASSURANCE.

The Premiums of Assurance against loss and damage occasioned by Fire, are charged at the usual moderate rates of English Offices—the *houses and furniture of Clergymen, of all denominations, being insured ten per cent under these rates.*

MISS MURRAY, the Lady Superintendent, who occupies one of the largest and most commodious houses in Moray Place, in the immediate vicinity of the Institution, receives a limited number of boarders who attend the Institution. The Young Ladies have the advantage of the instruction of a resident French Governess.—Terms, under 12 years of age, 40 Guineas: above 12 years of age, 50 Guineas per annum. Other particulars may be known by applying to MISS MURRAY, either personally at the Institution, or by letter.

A list of respectable private families who receive young ladies as boarders is also kept by the Secretary at the Institution; and as none are admitted on the list but such as are known to the Directors, and also recommended by the Clergymen whose Church they attend, Parents may rest fully assured that their daughters will be carefully attended to. The terms of Board are 35 Guineas, and upwards, per annum, depending in a great measure upon the accommodation and attendance required.

Mr M'Donald receives Pupils of both Sexes from Four Years of Age and upwards, who are instructed in separate rooms.

QUARTER DAYS, 1ST OCTOBER, 15TH DECEMBER, 1ST MARCH, and 15TH MAY.

ALL PAYMENTS PER ADVANCE.

THE Class-Rooms are very spacious, elegant, and well ventilated; there is also the great advantage of commodious playground attached to them.

While Mr M'Donald could bring forward numerous proofs of the success of his former pupils who have attended, and some of whom are still attending, the High School, he is satisfied with stating the following facts:—In 1837, one of his Pupils was Dux of the First Latin Class, and gained (besides the Dux Prize) the First Prize for English Grammar, and the First Prize for English Reading and Recitation. In 1838, one of his Pupils was Dux of the First Latin Class, which consisted of between eighty and ninety boys, and another of his Pupils was Second of the same Class;—the one, besides receiving the Dux Prize, gained the Prize for knowledge of Adam's Grammar, the Prize for knowledge of Roman History, the Prize for Scriptural knowledge; and of two Prizes given for excelling in English Grammar—the Second Dux gained the one Prize, and the Dux gained the other. In 1839, one of his Pupils (besides receiving other Prizes) was Dux in the Second Latin Class. He has likewise to add, that one of his former Pupils gained a Gold Medal last year at the University; and Mr M'Donald feels happy in having it in his power to state, that this year, at the Examination of the High School, one of his former Pupils won the Medal given to the Third Class, and another received three Prizes in the same Class. Thus, for four successive years, one or more of Mr M'Donald's Pupils have carried off, at the High School, the highest honours awarded to the Class to which they belonged. Also, at the Dundee Seminary, one of his former Pupils gained Four Prizes this year, being the greatest number obtained by any scholar attending the Academy.

Without entering minutely into detail of the plan Mr M'Donald pursues in his school, it may be expedient to notice, that every Pupil in his department, from the alphabet upwards, is instructed by himself; and, in addition, the junior Classes, after receiving their lesson from Mr M'Donald, are committed to the charge of his Assistant, (a Pupil of Mr M'Donald's for a number of years,) who prepares them upon their following lesson. With regard to Recitation, Mr M'Donald begins to give instruction in it to his Pupils as soon as they can read; and although he will not go the length of saying with Quintillian, "It is not of so much consequence what our compositions are, as how they are pronounced, since it is the manner of delivery by which the audience is moved;" yet, thinking that the poet's remark is just, who says, "Action is eloquence," as well as the rhetorician's (Blair) who remarks, "That the tone of our voice, our looks, and gestures, interpret our ideas and emotions no less than words do; nay, the impression they make on others is frequently much stronger than any that words can make; and, therefore, Delivery deserves the study of the most grave and serious speakers, as much as of those whose only aim it is to please," Mr M'Donald endeavours to teach his Pupils to "suit the action to the word, and the word to the action, with this special observance, that they overstep not the modesty of nature." Besides the advantage of being thus trained to recite with ease and accuracy, their minds are also enriched with the choicest treasures of the British Poets, having a portion to commit to memory, and repeat daily, and a recital of the whole once a-week. As to Religious Instruction, Mr M'Donald thinks it unnecessary to say more than this, that he cannot imagine a more fallacious, unhallowed, and destructive course, than to separate secular from religious education. 'It is, he thinks, like building a house upon the sand, which may indeed appear "beautiful outside," as well as seem durable, but then it wants that which alone can give it real value and stability—"a sure foundation."

TESTIMONIALS AND CRITICAL NOTICES.

(From the Rev. Dr Dickson.)

I hereby certify, that I have been acquainted with Mr John M'Donald, Teacher, for a number of years, during which I have always had reason to regard him as a man of excellent Christian principle, and exemplary moral character. Two of my own children attended his school, with whose progress, under his tuition, I was much satisfied.

West-Kirk Manse, Jan. 22, 1835.

DAVID DICKSON, Minister.

(From James Gall, Esq., Author of the Lesson System of Teaching, &c.)

I have had frequent opportunities of judging of Mr John M'Donald's abilities as a Teacher, in which he combines mildness with firmness in an uncommon degree, regulated by a cautious prudence, which I found produced the happiest effects on my own children, three of whom were taught by him at different times. There is one peculiar characteristic in his training above any other teacher I have known; which is a great facility in making his pupils understand and apply what they read and learn. The advantages of this in my children are felt every day; and I have reason to believe the effects of this judicious management will be increasingly useful through life.

JAMES GALL.

Myrtle Bank, Trinity, 1st February 1835.

On Friday evening Mr M'Donald attracted a numerous and respectable audience, which his well known talents amply deserved. As an Elocutionist, he is always tasteful, judicious, and spirited. His expression and articulation seem to be the result of much practice; and indeed he possesses a thorough command over his powers. Mr M'Donald's style of delivery is chaste, pure, and correct, without being frigid or tame. Amongst the various professors of Elocution whom we have heard there is none better qualified to instil the principles and exemplify the practice of his art.—Edinburgh Evening Post, Oct. 4, 1834.

Mr M'Donald delivered a selection of Sacred Readings in the Hopetoun Rooms, on Friday evening last, before a numerous and highly respectable audience. The several pieces were selected from the best authors, and arranged with great judgment and taste. The last piece, on the "Wonders of Redemption," by Young, was given with fine effect, and must have produced a feeling upon the audience at once deep, thrilling, and sublime.—Edinburgh Evening Courant, December 17, 1833.

Sacred Readings.—Mr M'Donald delivered a second selection of Sacred Readings in the Hopetoun Rooms, on the evening of Monday last. The attempt to render such readings interesting is a bold one, and is such as few would risk; but in Mr M'Donald's hands it succeeded nobly—better, indeed, than almost any person could have predicated. This gentleman's ear, taste, and action, are all admirable; and nothing, whether grave or gay, sacred or profane, can but succeed in his hands.—Edinburgh Chronicle, March 2, 1839.

Mr M'Donald's Recitations.—On Monday evening Mr M'Donald gave a series of Readings and Recitations in the Hopetoun Rooms, which was attended by a numerous and highly respectable audience. Mr M'Donald is so well known, and so generally esteemed as a Teacher of Elocution, that it is almost superfluous to say that he was very effective on this occasion. We particularly liked his reciting of the Cotter's Saturday Night, and also Collins' splendid Ode to the Passions. Mr M'Donald, on the same evening, brought forward two of his pupils who reflected the greatest credit upon his teaching.—Edinburgh Evening Post and Scottish Standard, Feb. 24, 1841.

Elocution.—On Monday night Mr M'Donald, teacher of Elocution, George Street, delivered a Selection of Readings and Recitations, to a numerous and most respectable audience, in the Hopetoun Rooms. The pieces were well selected, and the talent displayed by Mr M'Donald must have delighted every one. We particularly admired his performance of Washington Irving's beautiful piece, "The Widow and her Son," and Collins' splendid Ode on the Passions. The appearance of Mr M'Donald fully sustained his high reputation as an Elocutionist. His success, too, as a Teacher of the art was evinced by two of his Pupils, who, in reciting their pieces, made a most creditable appearance.—The Witness, February 24, 1841.

Recitation.—On Monday evening Mr M'Donald, the eminent Teacher of English and Elocution, gave his annual selection of Readings and Recitations in the Hopetoun Rooms, before a numerous and respectable audience. The pieces generally were admirably delivered—the serious with correct feeling and true pathos, and the lighter ones with discriminating taste, much humour and fidelity; the whole so far apart from that ranting manner and pedantic style in which some elocutionists indulge, are decisive of his proficiency in this science. The mastery with which two of his little pupils recited, before the admiring company, was most gratifying, and highly applauded—an additional instance of the talent and success of their instructor.—Edinburgh Weekly Chronicle, Feb. 27, 1841.

CHRISTIAN DOCTRINE AND DUTY.

BEING A SELECTION OF SCRIPTURE PASSAGES ILLUSTRATIVE OF THIS TITLE.

(Marked with Emphases and Inflections.)

DEDICATED BY PERMISSION TO THE REV. DR MUIR, EDINBURGH.

By JOHN M'DONALD, Teacher of English, Geography, and Elocution.

My Dear Sir,—I have looked into your very neat volume, and beg leave now to say, that both its design and its execution meet with my full approbation. I think it calculated to be extremely useful, and sincerely hope it will obtain, *because it deserves*, an extensive circulation.

St Cuthbert's Manse, Edinburgh, 21st September, 1838.

DAVID DICKSON.

My dear Sir,—I have received your most interesting volume, which I am thoroughly persuaded is to prove, in all the points of view which you have contemplated, a highly acceptable and useful manual.

7 Danube Street, 14th October, 1838.

WILLIAM MUIR.

Mr M'Donald has produced not only a capital text-book for schools and students, but a volume that will be of great service in private families, for improvement in that knowledge which is of the last importance both here and hereafter.—Caledonian Mercury, October 6, 1838.

This work ought to be in the possession of every teacher of youth in Scotland.—Constitutional, Oct. 24, 1838.

The design, execution, and tendency of this little volume are excellent. In many respects the plan is wholly original, and the author has been equally successful in presenting the student of Scripture with a help to the formation of accurate views, sound principles, and good taste. The first part of the work is devoted to a summary of the rules of Elocution, an of all the rhetorical treatises that have come in our way, we unhesitatingly give the palm to this.—Scottish Guardian, Oct. 29, 1838.

COALS.

THE EDINBURGH and DALKEITH RAILWAY COMPANY request the attention of the Public to their REGULATIONS for the PREVENTION OF FRAUDS in the SUPPLY of COALS, as stated below, by which so many fraudulent Dealers have been detected and punished, or driven out of the Trade, since the opening of the Railway; and which, if attended to by the Purchasers of Coals, afford complete security against frauds in either the weight or the quality.

The Railway Company beg to remind the Public, that they have no interest in the Coal Trade of the Railway, but in its being extensive and respectable. Having provided the Coal Proprietors of Mid Lothian with commodious Depots, opening into one of the greatest thoroughfares of the City, they were empowered, by act of Parliament, to act as umpires between the Dealers in Coals and the Public, and TO COMPEL ALL COAL TO UNDERGO THE SCRUTINY OF THEIR INSPECTORS. How well the Railway Company have discharged the duty thus intrusted to them by Parliament, is proved by their having established a new and effectual method of detecting the frauds which had with impunity disgraced the Coal Trade prior to the opening of the Railway; and, by the fact that, in almost every conviction of fraudulent Dealers in the Police Court, the information and the proof have been furnished by the Railway Weighers and their assistants.

The result of the Company's system is, that fraudulent Dealers are now deterred from the Railway by the certainty of detection. The last instance, which occurred some months since, may be related in order to impress upon the Public the necessity of vigilance on their part, in attending to the rules annexed below:—Two Carters purchased 17 cwt. of New Craighall Household Coals in the Railway Depot, and attempted to deliver them to a lady in town as a Ton of New Craighall Jewel Coal, presenting a false certificate. The lady was deceived; but two persons employed by the Railway Inspector had followed the carters, detected the fraud in the only way such frauds can be detected, and having obtained the false certificate from the lady, furnished complete proof against the delinquents.

For the expense of this supervising Establishment the Railway Company make no charge:—their Inspectors register the weight and quality of the Coal, and the name of the carter, and they watch the conduct of the carter as he passes along the streets—all gratis.

RULES.

1st, Never receive Coals without the Inspector's certificate stamp of weight and quality. A fac-simile of which is given below, as stamped on each invoice accompanying coal that is correct in weight in quality.

2dly, Attend to the hour of departure as marked on the invoice, and if the carter appears to have travelled under the rate of three miles an hour, reject his coals.

3dly, Never allow the certificate to be kept and carried away by the carter; but let it be destroyed, or inclosed back to the Manager or the Inspector if it has any appearance of being a forgery.

4thly, If Coals appear on delivery to be of a different quality from what were ordered, a competent person shall be sent to inspect them, on application being made to the Inspector.

N.B.—His address is—The Coal Inspector, Edinburgh and Dalkeith Railway, St Leonard's Depot.

MINTO HOUSE HOSPITAL & DISPENSARY,

Argyle Square.

ORDINARY MEDICAL OFFICERS.

Dr A. Peddie, 11, Rutland Square.
Dr J. Brown, 35, London Street.
Dr Cornwall, 25, Royal Circus.

CONSULTING SURGEON.

Professor Syne, 9, Charlotte Square.

THIS Institution is intended for the benefit of a numerous class of individuals, who, when labouring under disease, though unable to pay for professional attendance, are unwilling to be considered objects of charity, and enter a public hospital. It will be found advantageous for Servants and Lodgers, who cannot, from their peculiar situations, obtain the necessary attentions and comforts during sickness; and also for patients coming from the country in quest of Medical or Surgical aid, to whom the expense of lodging and attendance, perhaps for a protracted period, would become oppressive.

The House is situated in a quiet and healthy part of the town; the building itself is commodious, the rooms airy, and provided with every necessary convenience; and all the arrangements have been made, with a view to the seclusion and comfort of the patients.

The rates of admission are 10s. or £1 per week, according to the accommodation required; and these sums are calculated as barely adequate to cover the necessary outlay for nurses, diets, and medicines.

Patients wishing to be admitted to Minto House may apply to any of the Medical Officers, and if resident in the country, should communicate their intention before coming to town, that arrangements may be made for their immediate reception.

Attached to the Hospital is a DISPENSARY, for the relief of the diseased poor. The Medical Officers attend every day at one o'clock, when advice and medicines are given. Accidents and other cases of urgency are attended to at any hour of the day or night by the Resident Pupils.

* Peppermint Lozenges are generally made with Foreign Oil, which is nearly one-half of the price of the English kind. The Foreign being grown in fields, is distilled with weeds, and is very rank, and of a turpentine flavour. The English is grown in gardens, and has a much finer flavour. These are made with the finest English Oil.

† The Lozenges which are sold under the name of Cinnamon Lozenges, are universally made from Cassia Oil. These are prepared with the real Cinnamon Oil, which cannot be had under L. 5 per lb. The Cassia Oil is only L. 2s. The difference in the flavour is very great.
